Summary

Final-year Computer Science student with a strong foundation in Core Java and a keen interest in backend development. Gained hands-on experience as a Java Full Stack Intern at Dhee Coding Lab, working with OOP concepts, SQL, and basic web technologies. Skilled in problem-solving and writing structured, maintainable code. Seeking a Software Developer role to apply backend development skills, contribute effectively, and grow in a professional environment.

Skills

Languages: Java, HTML, CSS, MySQL.

Technologies & Tools: Git, GitHub.

Soft Skills: Communication, Problem Solving, Teamwork, Adaptability.

Internship

Dhee Coding Lab, Bangalore

Mar 2026 - Present

Java Full Stack Intern

- Developing a strong foundation in **Core Java**, applying **OOP principles** to build structured and maintainable programs.
- Designing and implementing responsive front-end interfaces using **HTML and CSS**.
- Writing optimized **SQL** queries for effective data handling and database operations.
- Continuously building programming and problem-solving skills through hands-on practice.

Xtransmatrix Consulting Services Pvt. Ltd., Mangalore

Oct 2025 – Feb 2026

AI Operator

- Worked on a US-based Healthcare AI project, supporting AI/ML workflows.
- Performed data validation, intent classification, and AI response verification.
- Ensured quality and accuracy of AI outputs through Human-in-the-Loop processes.

Education

Srinivas University, Mangalore

Nov 2022 - Present

B.Tech in Computer Science and Engineering

CGPA: 8.15

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms.

Project Work

Student Management System:

- Developed application logic using **Core Java and OOP principles** to implement efficient CRUD operations
- Integrated MySQL with Java for reliable data storage and optimized query handling.
- Built features like search and performance tracking, ensuring structured and maintainable code.

ATM Database Management System:

- Designed and managed a relational database for ATM operations using **SQL**
- Implemented queries for transactions like **withdrawal, deposit, and balance tracking**
- Ensured data consistency and efficient retrieval through structured database design

Awards and Certificates

- Completed **Java Programming Certification** from Ethnotech Academy.
- Selected as QA Reviewer from intern pool during AI Operator Internship, ensuring quality and accuracy of AI outputs.
